Phone #: 1 (210) 994-3675
Email: kingkey0101@outlook.com
Location: Texas
Portfolio: https://keylanking.dev

Frontend developer with 1 year of experience building with React; TypeScript; Tailwind; Vite; Firebase; GSAP; Chart.js; Redux/hooks; react-webcam; FileReader; lazy loading; Git/GitHub. Converts Figma into pixel-perfect components.

## Professional Experience

**Skinstric AI**                                                                                           **Remote | October 2025**
*Frontend Developer*
- Architected real-time skin analysis platform using OpenAI Vision API and Next.js, achieving 98% detection accuracy across diverse skin conditions
- Developed responsive UI with TailwindCSS and GSAP animations, implementing dynamic skincare recommendation cards with 60% improved engagement
- Designed modular component library with TailwindCSS for skincare product displays, enabling rapid A/B testing of recommendation layouts
- Implemented efficient image processing pipeline combining OpenAI Vision API with 4D Mini model for enhanced accuracy in skin tone and texture analysis

**NFT Virtual Internship**                                                                            **Remote | August 2025**
*Frontend Developer*
- Developed responsive React.js frontend components for NFT display platform serving digital assets.
- Integrated RESTful APIs using Axios to retrieve NFT metadata and digital assets, achieving 95% succesful request rate and sub 2 second load times.
- Built and maintained reusable React components using JavaScript Es6 and material-UI for consistent styling.
- Created mobile responsive layouts using CSS Flexbox and Grid, ensuring consistent display across desktop, tablet, and mobile devices with 98% compatibility.

## Projects (personal)

**Summarist:** *https://summarist-inky.vercel.app/* | *https://github.com/kingkey0101/Summarist*
*Created a fully functional platform for book summaries*
- Features audio book summaries, user libraries, and premium subscriptions. Tested with Vitest, linted with Biome, deployed via Vercel with CI/CD through GitHub Actions. Includes responsive design, search functionality, and user authentication.

**Skinstric.ai:** *https://skinstric-ai-two.vercel.app/* | *https://github.com/kingkey0101/Skinstric-ai*
*Reworked an AI-powered skincare analysis React.js app*
- Skinstric.ai is an interactive skincare assistant that helps users discover personalized skincare insights and explore products or routines, combining clean design with smooth API integration, and component architecture. This was a paid internship project.

## Technical Skills

**Programming Languages:** JavaScript, TypeScript, HTML, CSS
**Frameworks:** React, TailwindCSS, Firebase, Supabase, NextJS, Redux, React Query, React Hook Form
**Tools & Other platforms:** Vercel, GitHub, Vite, Figma, VsCode, Jest, Stripe, React Testing Libraries, ESLint, Biome

## Education:

**FES Institute |** *Certificate*                                                                     **2025**
Frontend Development

**AAS**                                                                                                            *2015*

## Other

**Interests:** Playing guitar, Texas Barbecue, Muscle Cars
